Self-Assessment

No.	Criteria	Grade	Self-Assessed Grade
1	Feature A (Domain + Boundary)	25	25
2	Feature B (Domain + Boundary)	25	25
3	Feature C (Domain + Boundary)	25	25
4	Feature D (Domain + Boundary)	15	15
5	Agent Skill	10	10
	Total	100	100

Test Summary Report

1. Scope of Testing

The testing process evaluated the following features of the EShop system using **Domain Testing (Equivalent Partitioning)** and **Boundary Value Analysis (BVA)** techniques:

- **Feature A (Coupon Admin / FR-17):** Creating, listing, and deleting coupons with validation checks.

- **Feature B (Mobile Cart / FR-20):** Cart operations on mobile devices including adding, updating quantities, and empty states.
- **Feature C (Coupon / FR-09, FR-21):** Applying percent/fixed coupons to orders with boundary limits.
- **Feature D (Product Detail / FR-06, FR-08, FR-21, FR-23, FR-24):** Product detailed view, quantity selection, and breadcrumbs.

2. Overall Execution Statistics

Across all features, a total of **83 test cases** were designed and executed.

Metric	Count / Percentage
Total Test Cases	83
Passed	56
Failed	27
Blocked / Skipped	0
Overall Pass Rate	67.47%

3. Detailed Statistics by Feature

The table below details the performance of each individual feature:

Feature ID	Feature Name	Total TCs	Passed	Failed	Pass Rate
Feature A	Coupon Admin (FR-17)	26	16	10	61.54%
Feature B	Mobile Cart (FR-20)	24	21	3	87.50%
Feature C	Coupon (FR-09, FR-21)	18	13	5	72.22%
Feature D	Product Detail (FR-06, FR-08, FR-21, FR-23, FR-24)	15	6	9	40.00%
Total		83	56	27	67.47%

4. Key Findings & Bug Summary

A total of **23 bugs** were identified during execution (classified by severity):

- **Major / P1 (18 Bugs):**

- Major logic errors in coupon calculations (e.g., percent discount increasing the final price by 10x).
- Lack of backend input validations in Coupon Admin, allowing invalid types, negative discounts, and negative minimum order amounts.
- Cart quantity editing bug where quantity increments unexpectedly by 1 on direct input.
- Lack of authorization checks on coupon application and cart adding.

- **Minor / P2 (5 Bugs):**

- Missing breadcrumbs, category name, and empty state illustrations.
- UI labels showing “Tổng tạm tính” instead of “Tổng cộng”.
- Missing confirmation dialog on removing items from the cart.

For the full detailed list of bugs, refer to the [Bug Report](#). For the traceability matrix mapping requirements to test cases, refer to the [Traceability Matrix](#). For the detailed run logs, refer to the [Sprint 1 Test Run Logs](#).
