

Báo cáo lỗi — Task 1

Thời điểm thực hiện: 2026-07-30T02:02:12.546Z. Mọi lỗi dưới đây đều đã được tái hiện trên SUT EShop cục bộ.

BUG-CART-01 — Cart page lacks the required page heading and breadcrumb

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Nghiêm trọng
Màn hình	Web khách hàng /cart
GitHub Issue	Xem issue
Hạng mục bị ảnh hưởng	CART-GUI-002, CART-GUI-003, CART-GUI-045

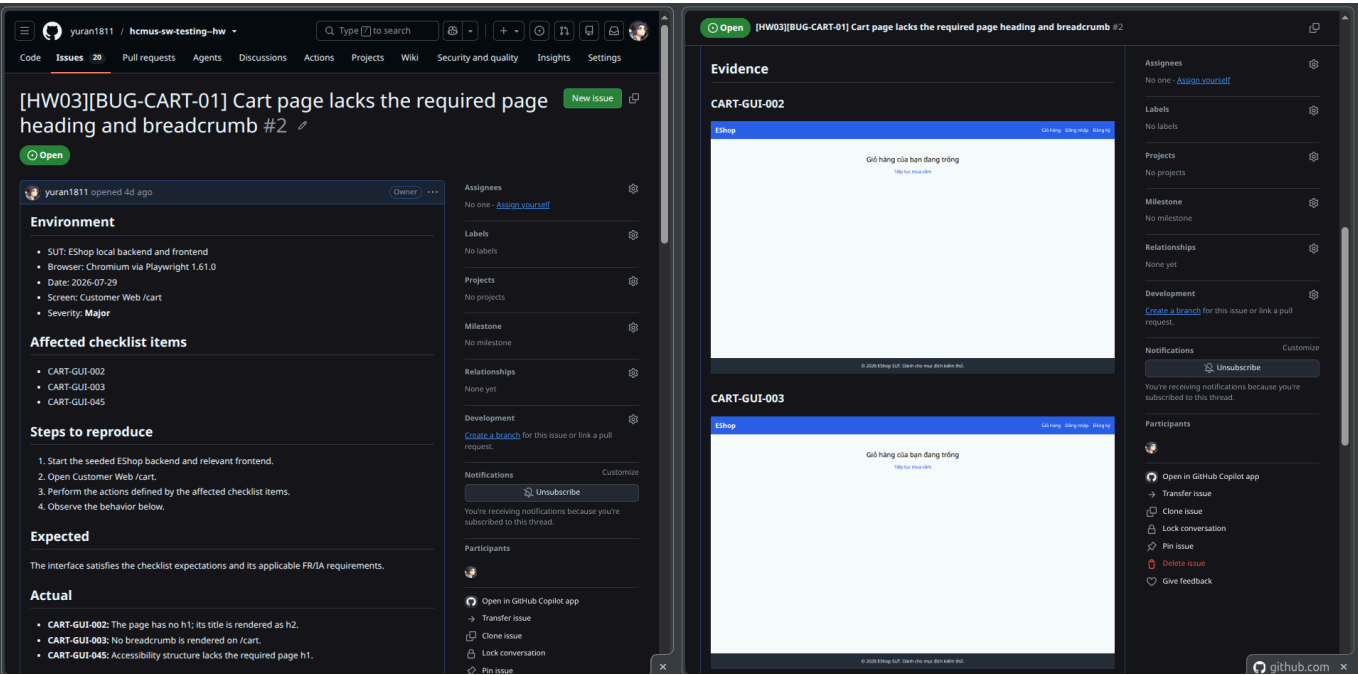

Các bước tái hiện

- Khởi động backend đã nạp dữ liệu và frontend tương ứng.
- Mở Web khách hàng tại /cart.
- Thực hiện các thao tác của CART-GUI-002, CART-GUI-003 và CART-GUI-045.
- Quan sát hành vi thực tế bên dưới.

Kết quả mong đợi: Giao diện đáp ứng kỳ vọng của checklist liên kết và các yêu cầu FR/IA áp dụng.

Kết quả thực tế: Trang không có thẻ h1; tiêu đề được hiển thị bằng h2. /cart không có breadcrumb và cấu trúc hỗ trợ tiếp cận cũng thiếu h1 của trang.

Bằng chứng: [CART-GUI-002](#), [CART-GUI-003](#), [CART-GUI-045](#)

BUG-CART-02 — Cart navigation has no active state or quantity badge

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Major

Thuộc tính	Giá trị
Màn hình	Customer Web header and /cart
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	CART-GUI-004, CART-GUI-005

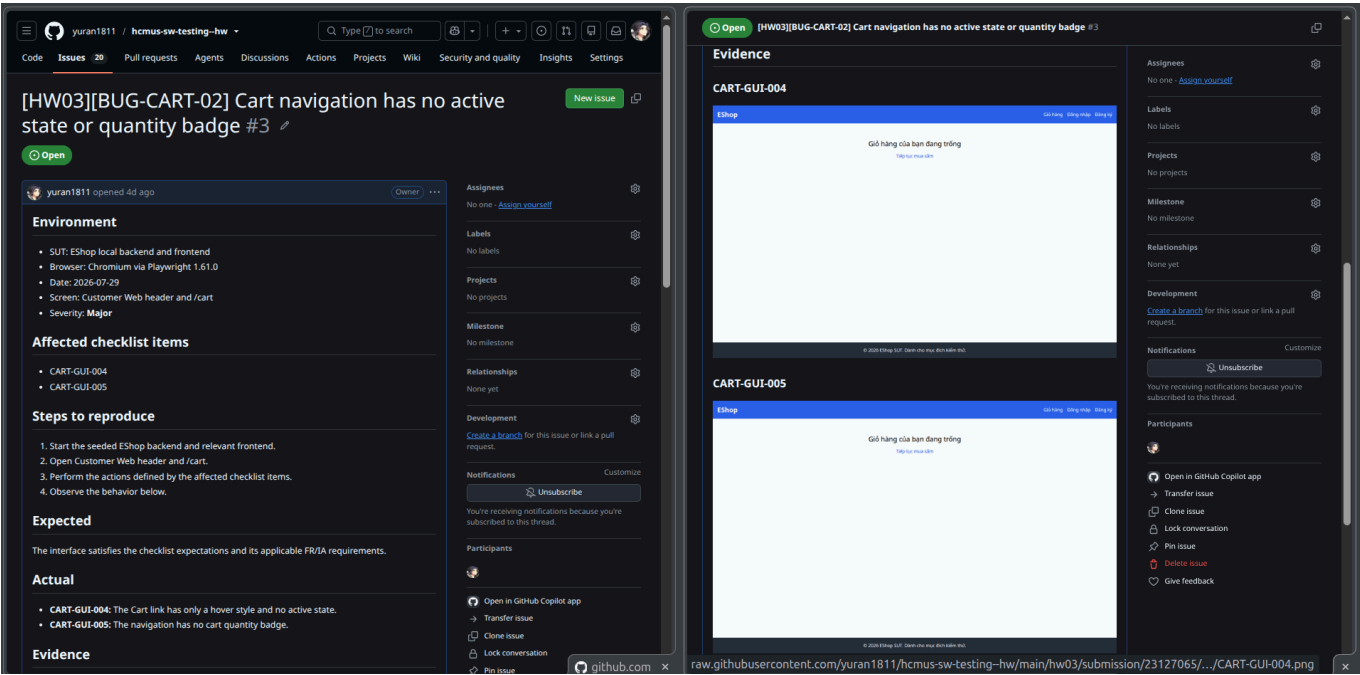

Steps to reproduce

- 1. Start the seeded backend and relevant frontend.
- 2. Open Customer Web header and /cart.
- 3. Perform the actions described by CART-GUI-004, CART-GUI-005.
- 4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: The Cart link has only a hover style and no active state. The navigation has no cart quantity badge.

Evidence: [CART-GUI-004](#), [CART-GUI-005](#)

BUG-CART-05 — Empty cart state has no icon or illustration

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Minor
Màn hình	Customer Web /cart
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	CART-GUI-010

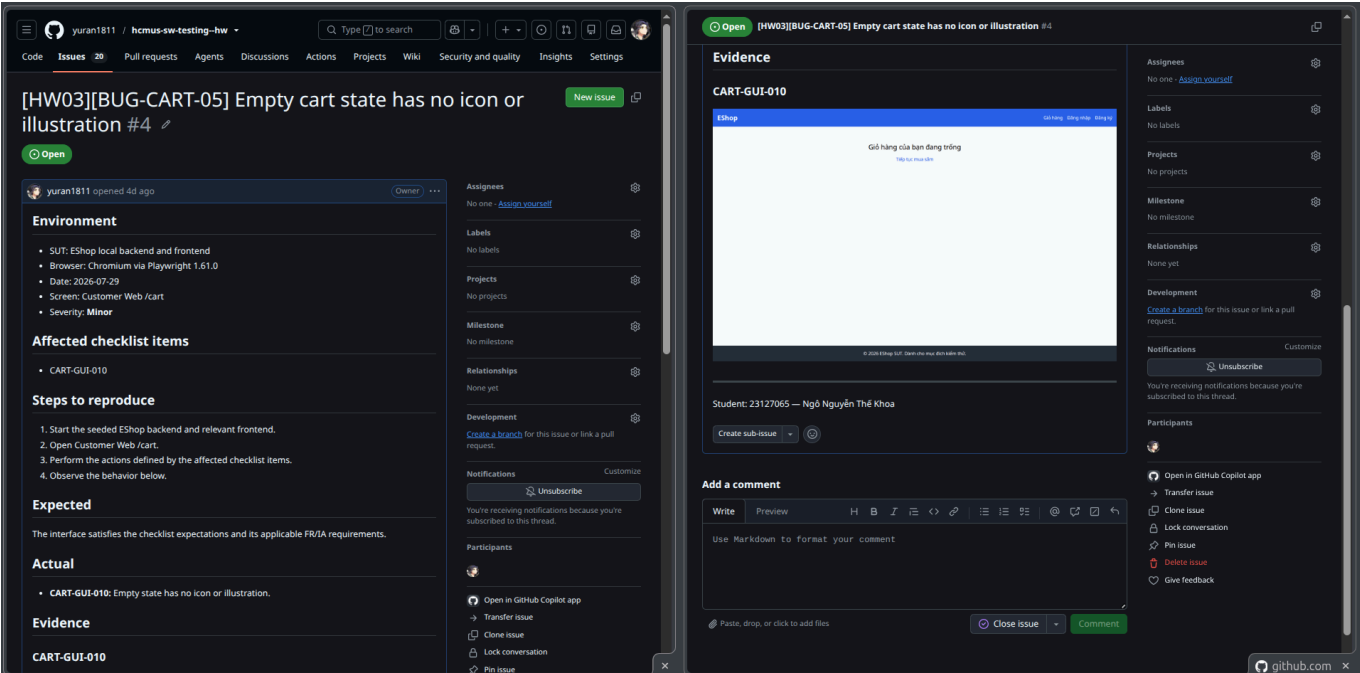

Steps to reproduce

- 1. Start the seeded backend and relevant frontend.
- 2. Open Customer Web /cart.
- 3. Perform the actions described by CART-GUI-010.
- 4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: Empty state has no icon or illustration.

Evidence: [CART-GUI-010](#)

BUG-CART-06 — Cart focus indicator is not visibly exposed

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Major
Màn hình	Customer Web /cart
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	CART-GUI-043

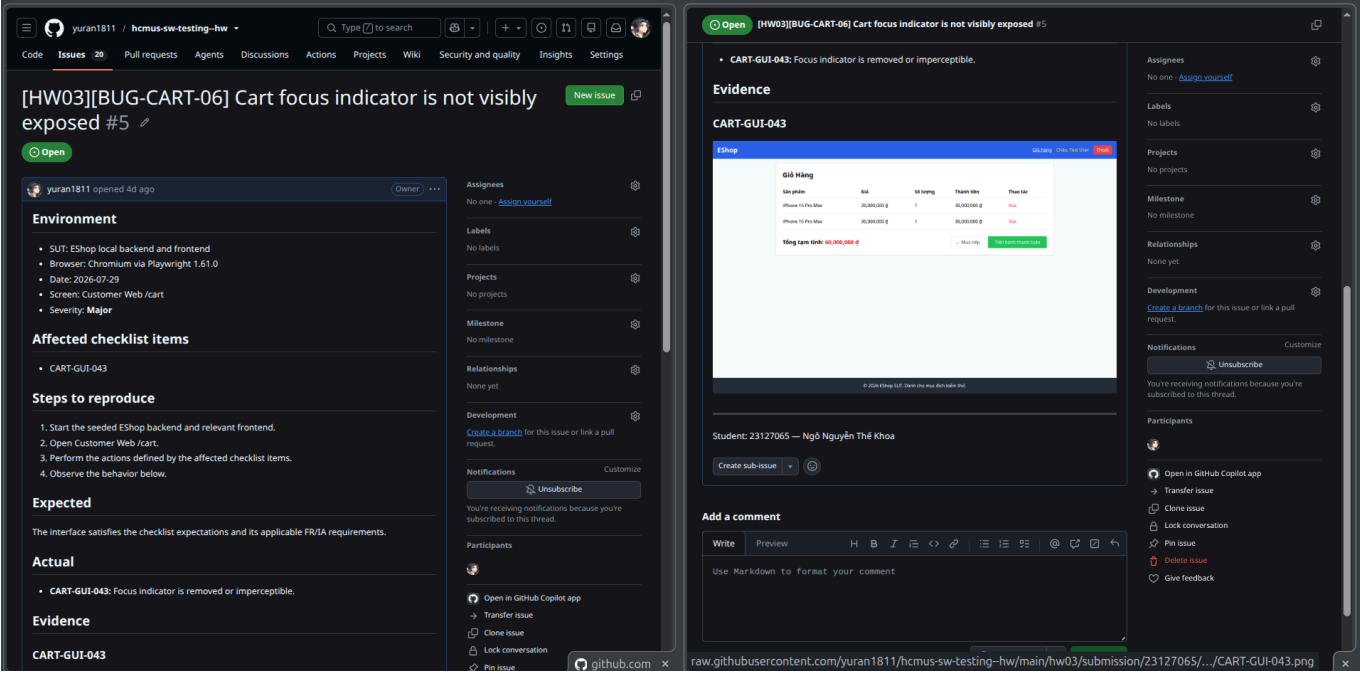

Steps to reproduce

1. Start the seeded backend and relevant frontend.
2. Open Customer Web /cart.
3. Perform the actions described by CART-GUI-043.
4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: Focus indicator is removed or imperceptible.

Evidence: [CART-GUI-043](#)

BUG-CART-09 — Cart table uses the wrong unit-price column label

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Minor
Màn hình	Customer Web /cart
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	CART-GUI-015

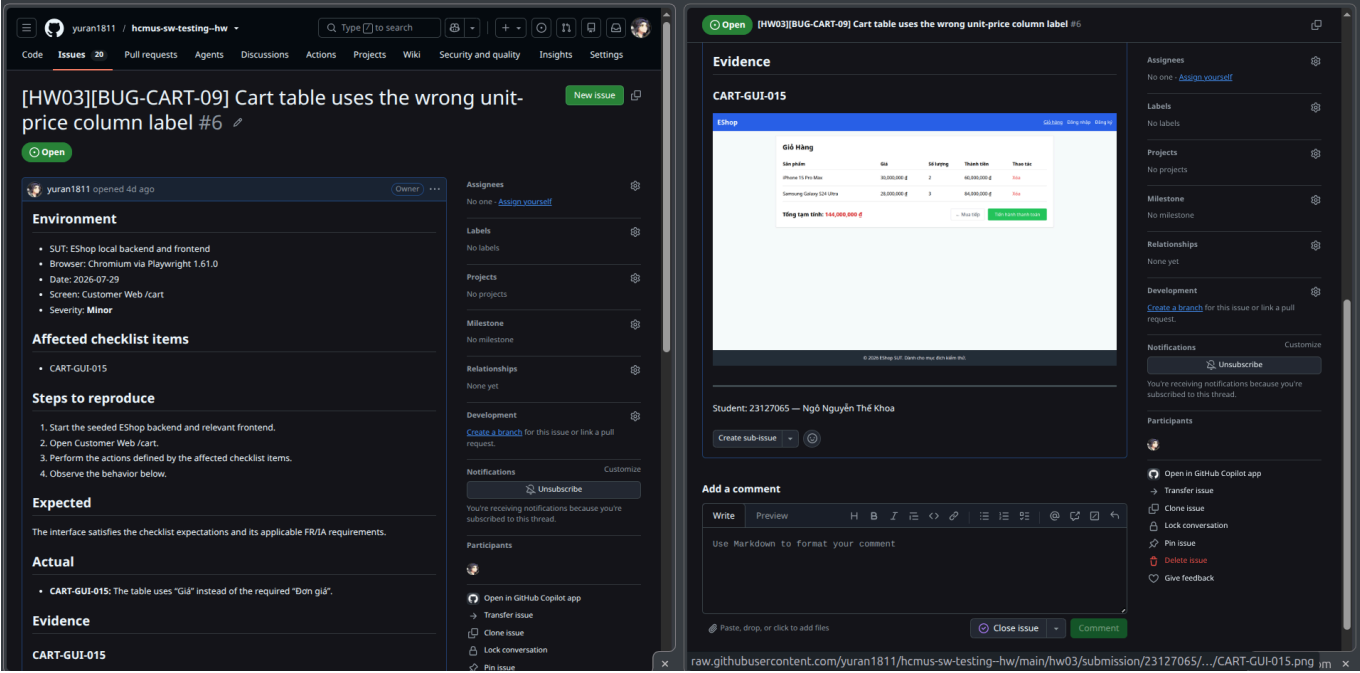

Steps to reproduce

1. Start the seeded backend and relevant frontend.
2. Open Customer Web /cart.
3. Perform the actions described by CART-GUI-015.
4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: The table uses “Giá” instead of the required “Đơn giá”.

Evidence: [CART-GUI-015](#)

BUG-CART-11 — Cart total is labeled Tổng tạm tính instead of Tổng cộng

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Major
Màn hình	Customer Web /cart
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	CART-GUI-020

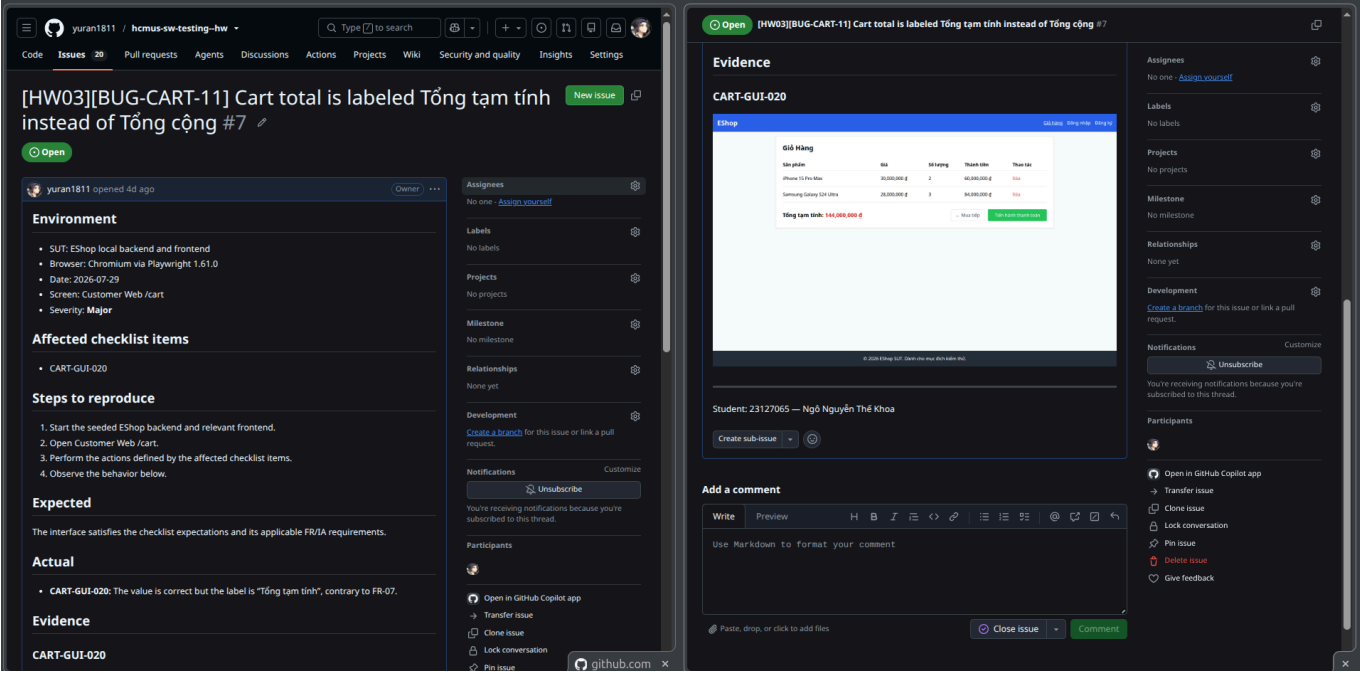

Steps to reproduce

- 1. Start the seeded backend and relevant frontend.
- 2. Open Customer Web /cart.
- 3. Perform the actions described by CART-GUI-020.
- 4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: The value is correct but the label is “Tổng tạm tính”, contrary to FR-07.

Evidence: [CART-GUI-020](#)

BUG-CART-12 — Adding the same product creates duplicate cart rows

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Major
Màn hình	Customer Web product detail and /cart
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	CART-GUI-021

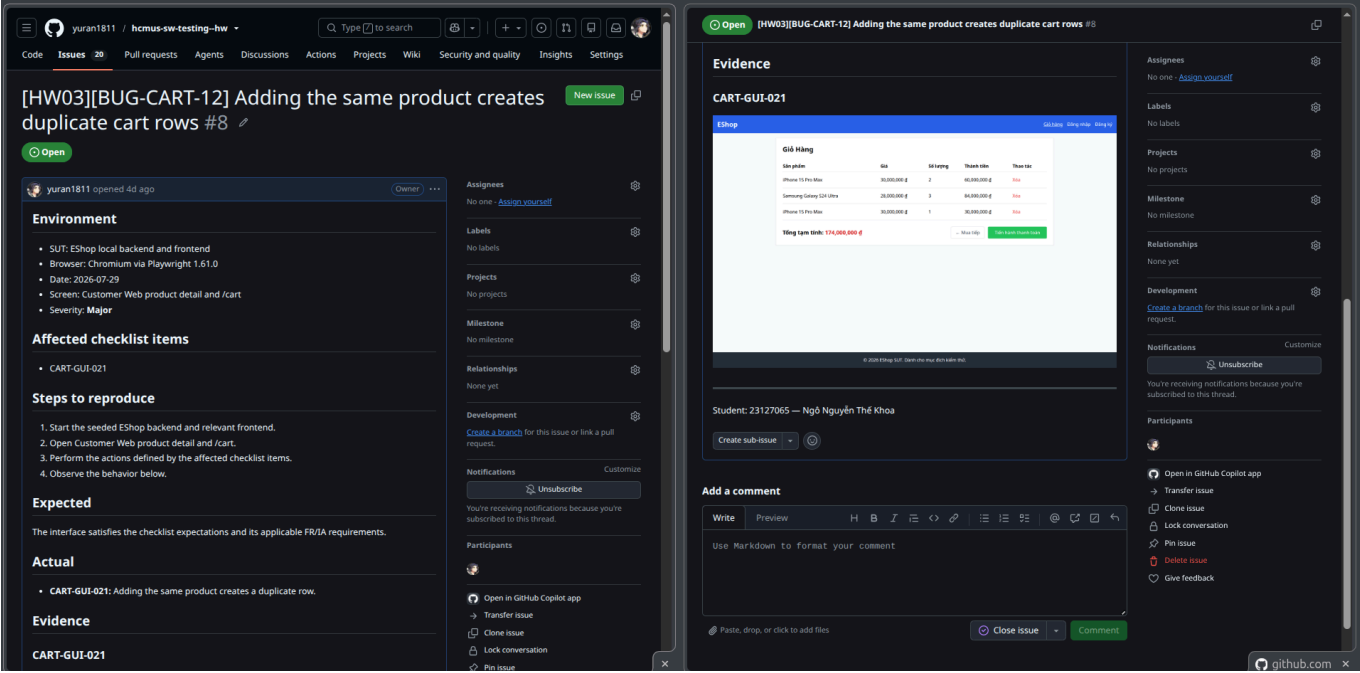

Steps to reproduce

- 1. Start the seeded backend and relevant frontend.
- 2. Open Customer Web product detail and /cart.
- 3. Perform the actions described by CART-GUI-021.
- 4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: Adding the same product creates a duplicate row.

Evidence: [CART-GUI-021](#)

BUG-CART-13 — Cart provides no controls for changing item quantity

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Blocker
Màn hình	Customer Web /cart
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	CART-GUI-022, CART-GUI-023, CART-GUI-024, CART-GUI-025

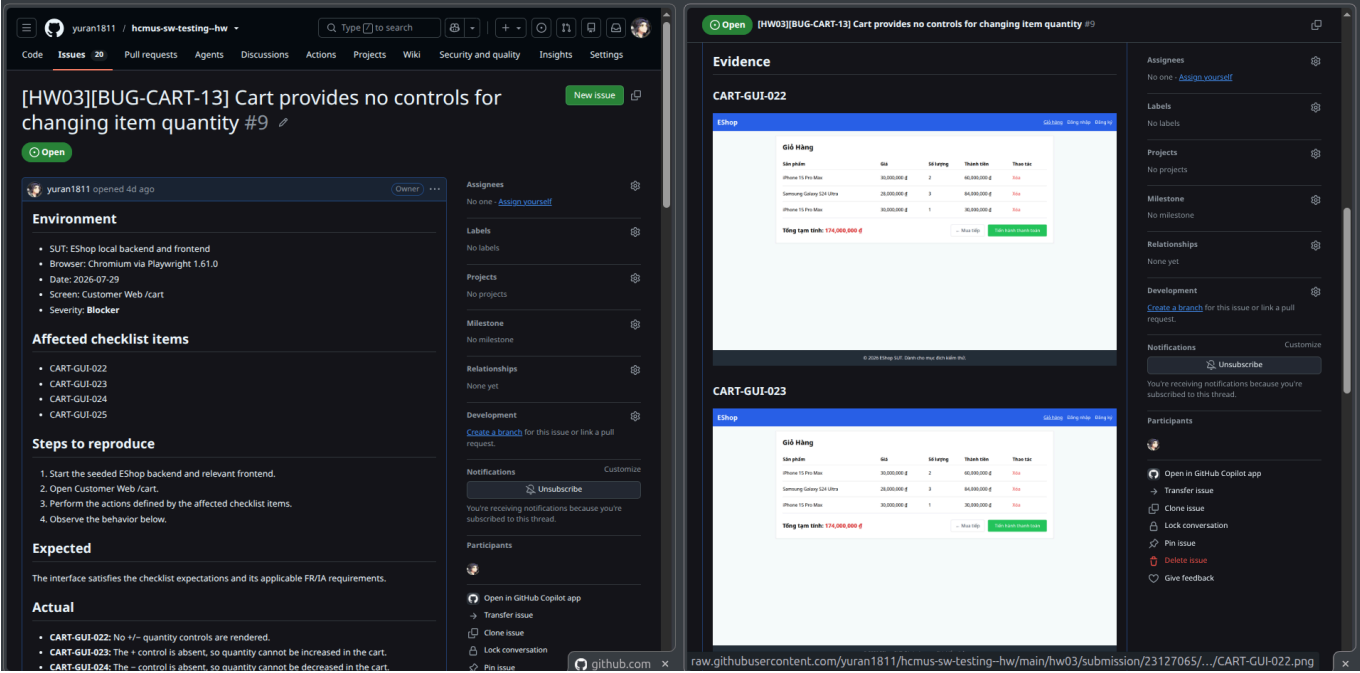

Steps to reproduce

1. Start the seeded backend and relevant frontend.
2. Open Customer Web /cart.
3. Perform the actions described by CART-GUI-022, CART-GUI-023, CART-GUI-024, CART-GUI-025.
4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: No +/- quantity controls are rendered. The + control is absent, so quantity cannot be increased in the cart. The – control is absent, so quantity cannot be decreased in the cart. The required decrement boundary cannot be exercised because the control is absent.

Evidence: [CART-GUI-022](#), [CART-GUI-023](#), [CART-GUI-024](#), [CART-GUI-025](#)

BUG-CART-16 — Removing a cart item bypasses the required confirmation dialog

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Major
Màn hình	Customer Web /cart
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	CART-GUI-028, CART-GUI-029, CART-GUI-032

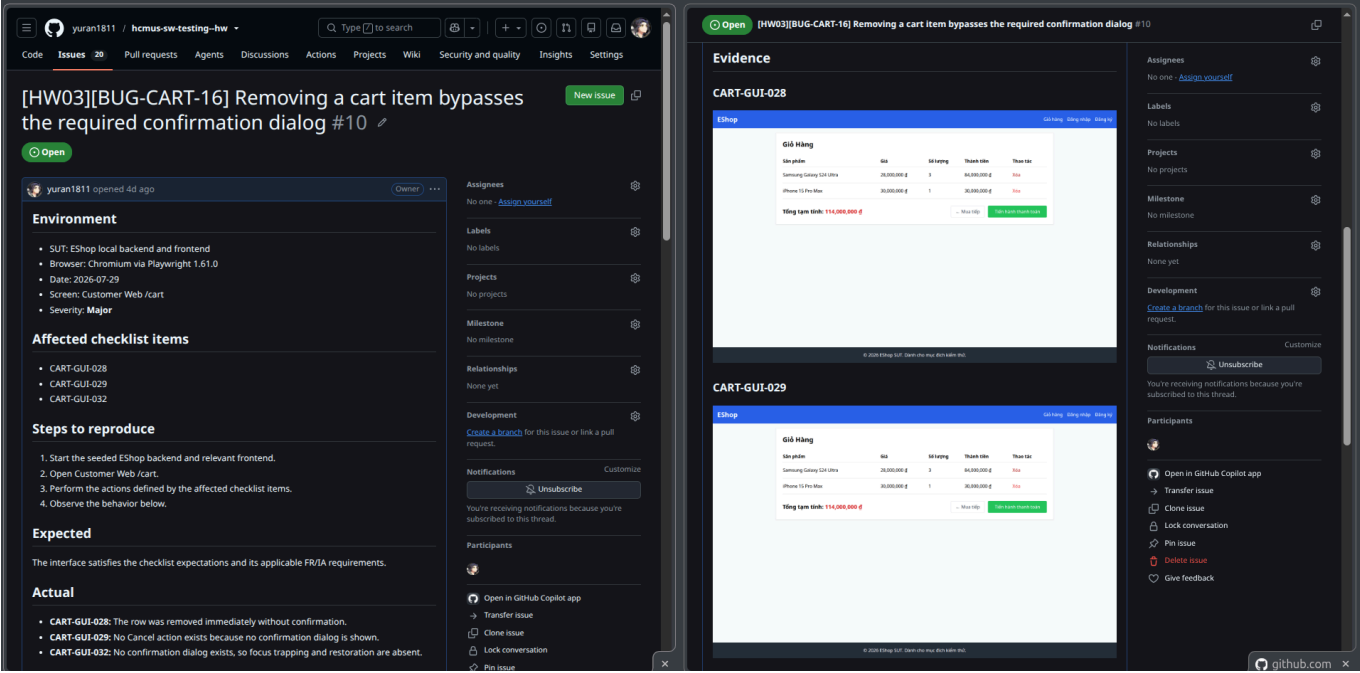

Steps to reproduce

1. Start the seeded backend and relevant frontend.
2. Open Customer Web /cart.
3. Perform the actions described by CART-GUI-028, CART-GUI-029, CART-GUI-032.
4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: The row was removed immediately without confirmation. No Cancel action exists because no confirmation dialog is shown. No confirmation dialog exists, so focus trapping and restoration are absent.

Evidence: [CART-GUI-028](#), [CART-GUI-029](#), [CART-GUI-032](#)

BUG-CART-20 — Cart table overflows the 320px mobile viewport

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Major
Màn hình	Customer Web /cart at 320x568
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	CART-GUI-038

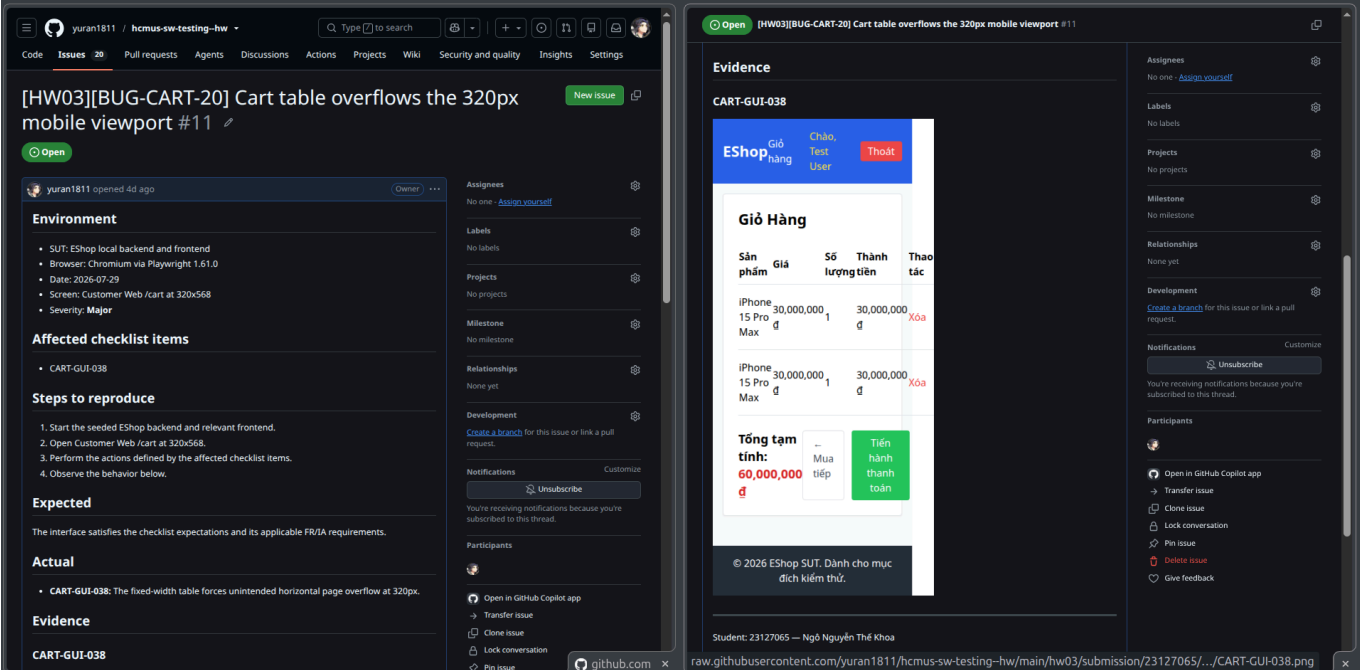

Steps to reproduce

1. Start the seeded backend and relevant frontend.
2. Open Customer Web /cart at 320x568.
3. Perform the actions described by CART-GUI-038.
4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: The fixed-width table forces unintended horizontal page overflow at 320px.

Evidence: [CART-GUI-038](#)

BUG-CART-21 — Repeated cart action controls do not identify their product

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Major
Màn hình	Customer Web /cart
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	CART-GUI-044

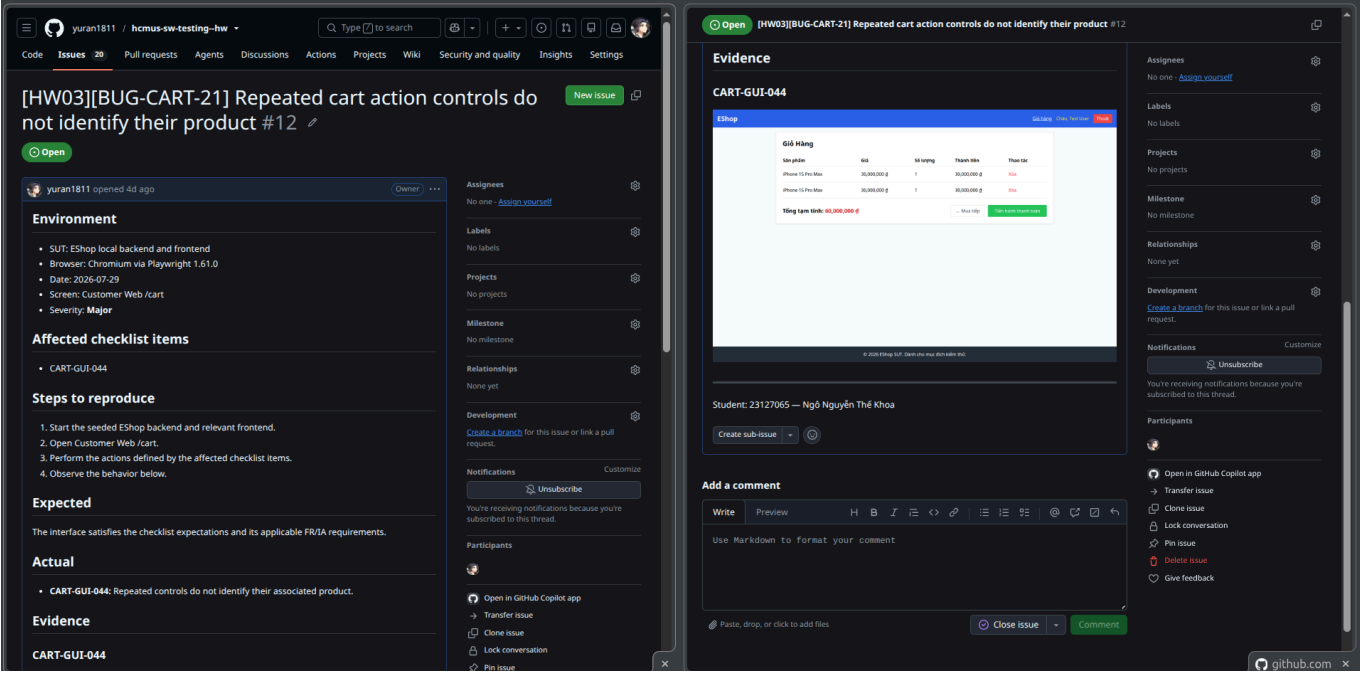

Steps to reproduce

1. Start the seeded backend and relevant frontend.
2. Open Customer Web /cart.
3. Perform the actions described by CART-GUI-044.
4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: Repeated controls do not identify their associated product.

Evidence: [CART-GUI-044](#)

BUG-CART-24 — Customer frontend declares English instead of Vietnamese document language

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Minor
Màn hình	Customer Web document
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	CART-GUI-048

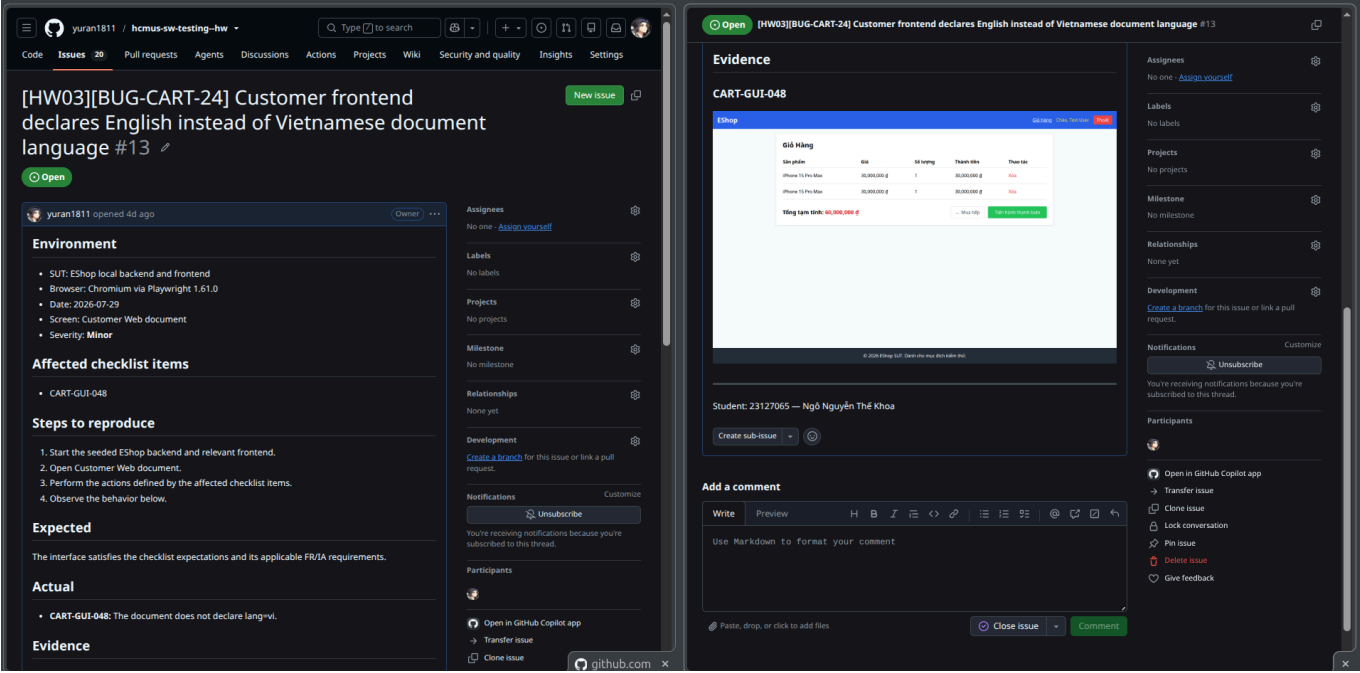

Steps to reproduce

1. Start the seeded backend and relevant frontend.
2. Open Customer Web document.
3. Perform the actions described by CART-GUI-048.
4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: The document does not declare lang=vi.

Evidence: [CART-GUI-048](#)

BUG-COUPON-03 — Coupon screen title uses the wrong heading level

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Minor
Màn hình	Admin Coupon
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	COUPON-GUI-005

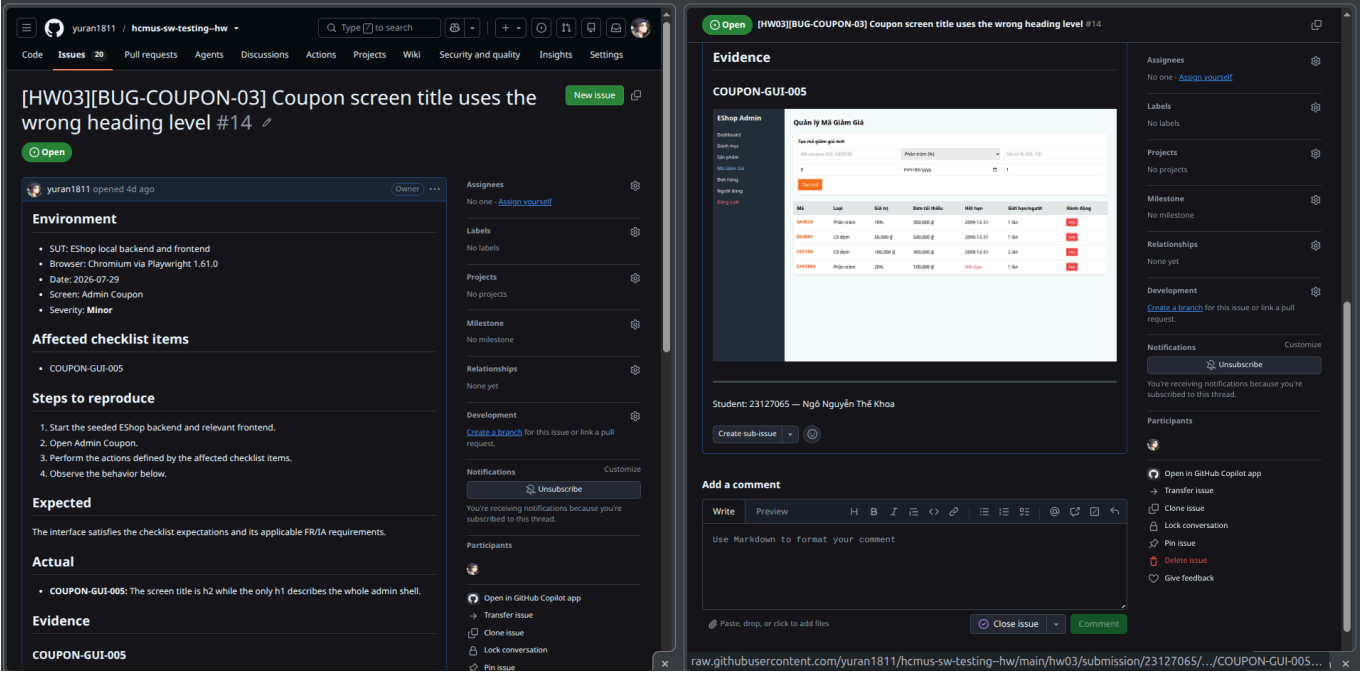

Steps to reproduce

- 1. Start the seeded backend and relevant frontend.
- 2. Open Admin Coupon.
- 3. Perform the actions described by COUPON-GUI-005.
- 4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: The screen title is h2 while the only h1 describes the whole admin shell.

Evidence: [COUPON-GUI-005](#)

BUG-COUPON-04 — Admin navigation mixes English and Vietnamese labels

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Minor
Màn hình	Admin shell
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	COUPON-GUI-006

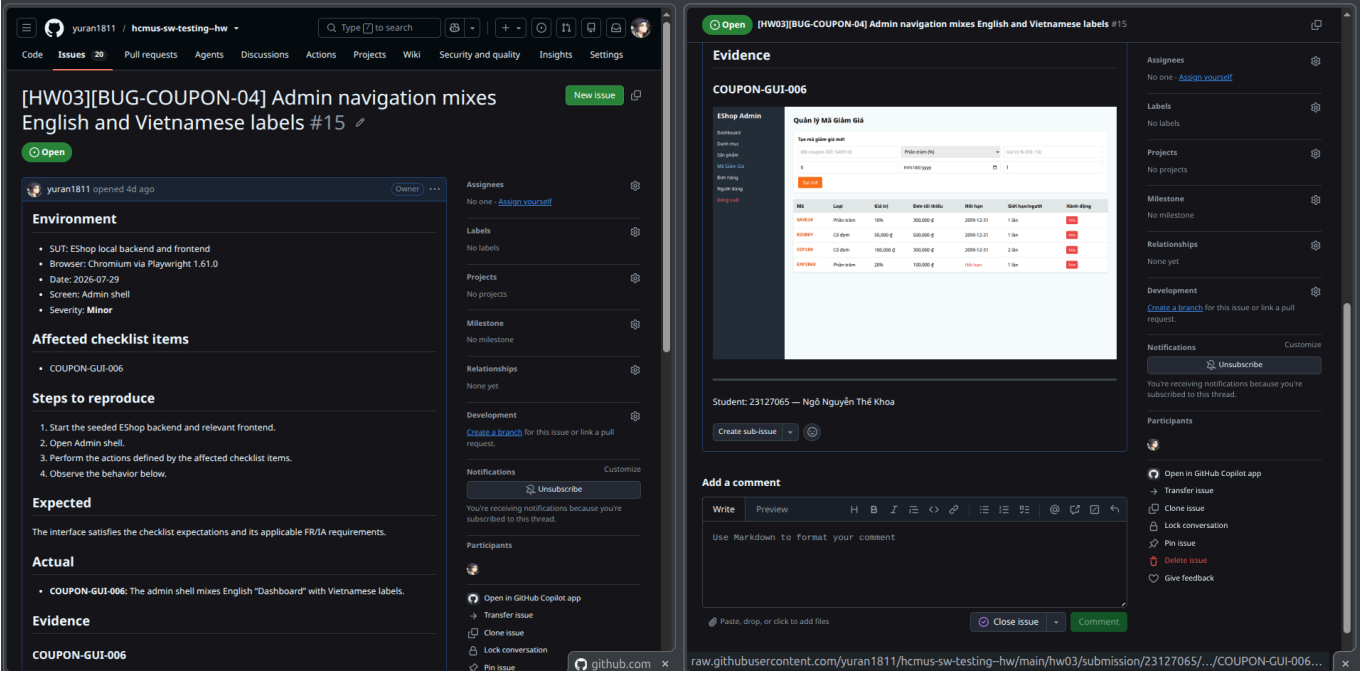

Steps to reproduce

- 1. Start the seeded backend and relevant frontend.
- 2. Open Admin shell.
- 3. Perform the actions described by COUPON-GUI-006.
- 4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: The admin shell mixes English “Dashboard” with Vietnamese labels.

Evidence: [COUPON-GUI-006](#)

BUG-COUPON-08 — Empty coupon table has no explanatory state

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Minor
Màn hình	Admin Coupon
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	COUPON-GUI-015

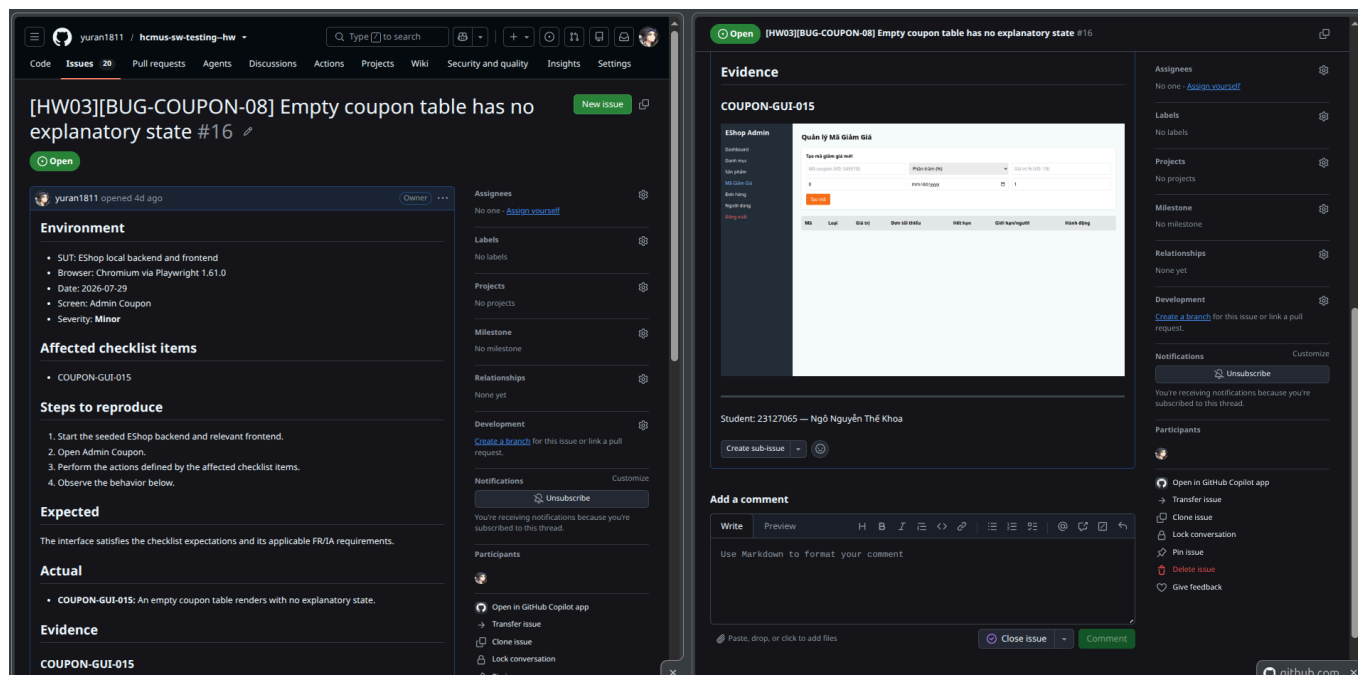

Steps to reproduce

1. Start the seeded backend and relevant frontend.
2. Open Admin Coupon.
3. Perform the actions described by COUPON-GUI-015.
4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: An empty coupon table renders with no explanatory state.

Evidence: [COUPON-GUI-015](#)

BUG-COUPON-09 — Coupon form lacks visible labels and required markers

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Major
Màn hình	Admin Coupon form
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	COUPON-GUI-016

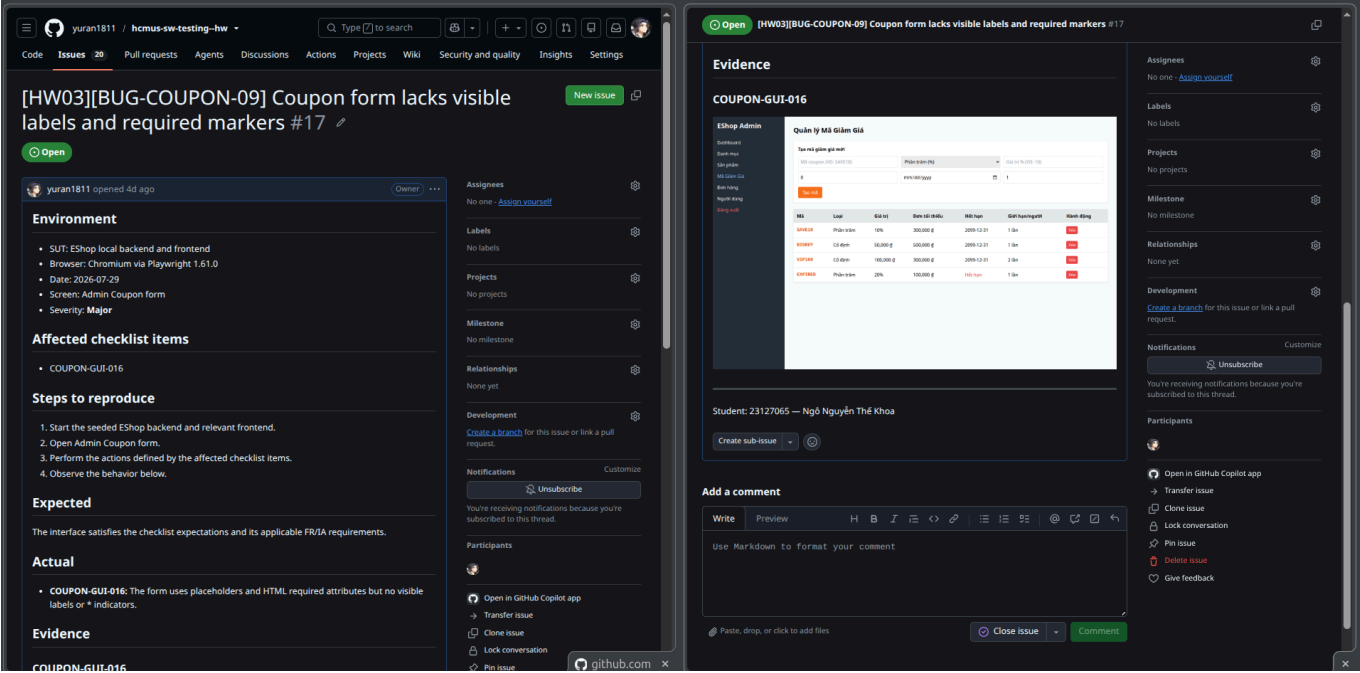

Steps to reproduce

1. Start the seeded backend and relevant frontend.
2. Open Admin Coupon form.
3. Perform the actions described by COUPON-GUI-016.
4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: The form uses placeholders and HTML required attributes but no visible labels or * indicators.

Evidence: COUPON-GUI-016

BUG-COUPON-11 — Coupon form omits discount and expiry boundary validation

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Major
Màn hình	Admin Coupon form
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	COUPON-GUI-019, COUPON-GUI-020, COUPON-GUI-022

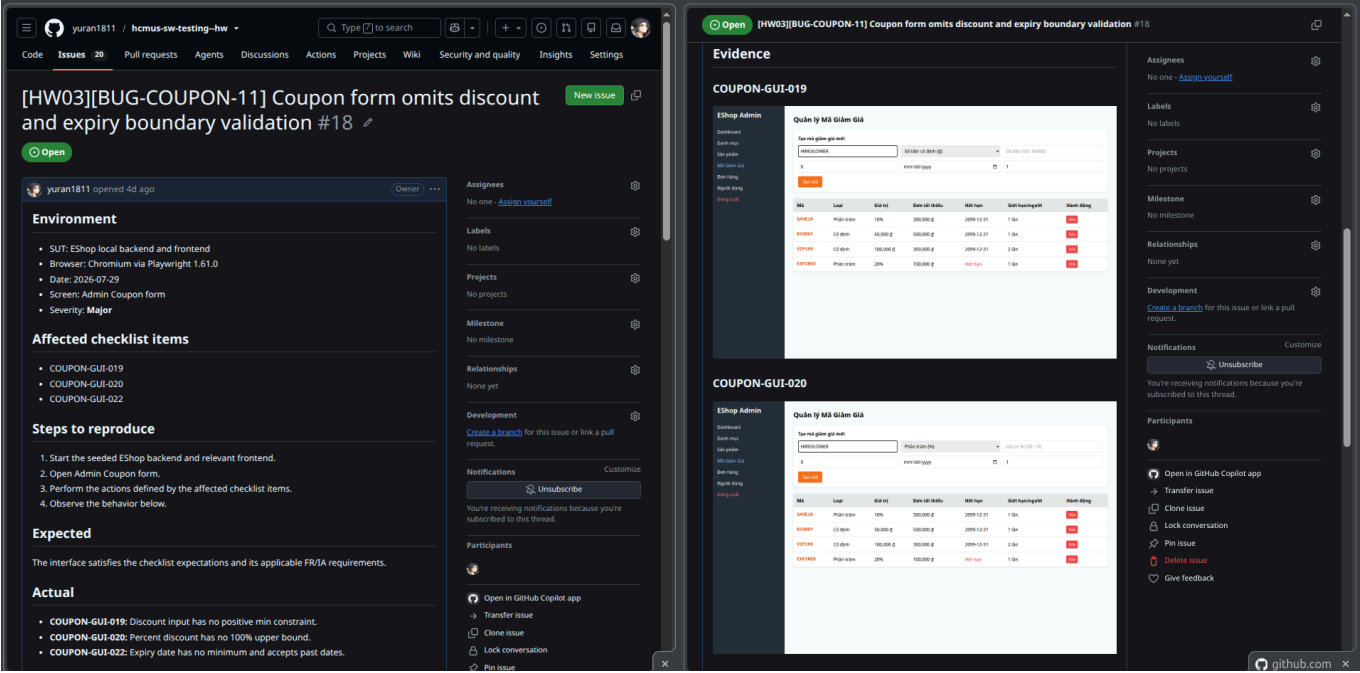

Steps to reproduce

1. Start the seeded backend and relevant frontend.
2. Open Admin Coupon form.
3. Perform the actions described by COUPON-GUI-019, COUPON-GUI-020, COUPON-GUI-022.
4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: Discount input has no positive min constraint. Percent discount has no 100% upper bound. Expiry date has no minimum and accepts past dates.

Evidence: [COUPON-GUI-019](#), [COUPON-GUI-020](#), [COUPON-GUI-022](#)

BUG-COUPON-12 — Duplicate coupon exposes a SQLite error in a browser alert

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Major
Màn hình	Admin Coupon form
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	COUPON-GUI-024, COUPON-GUI-025

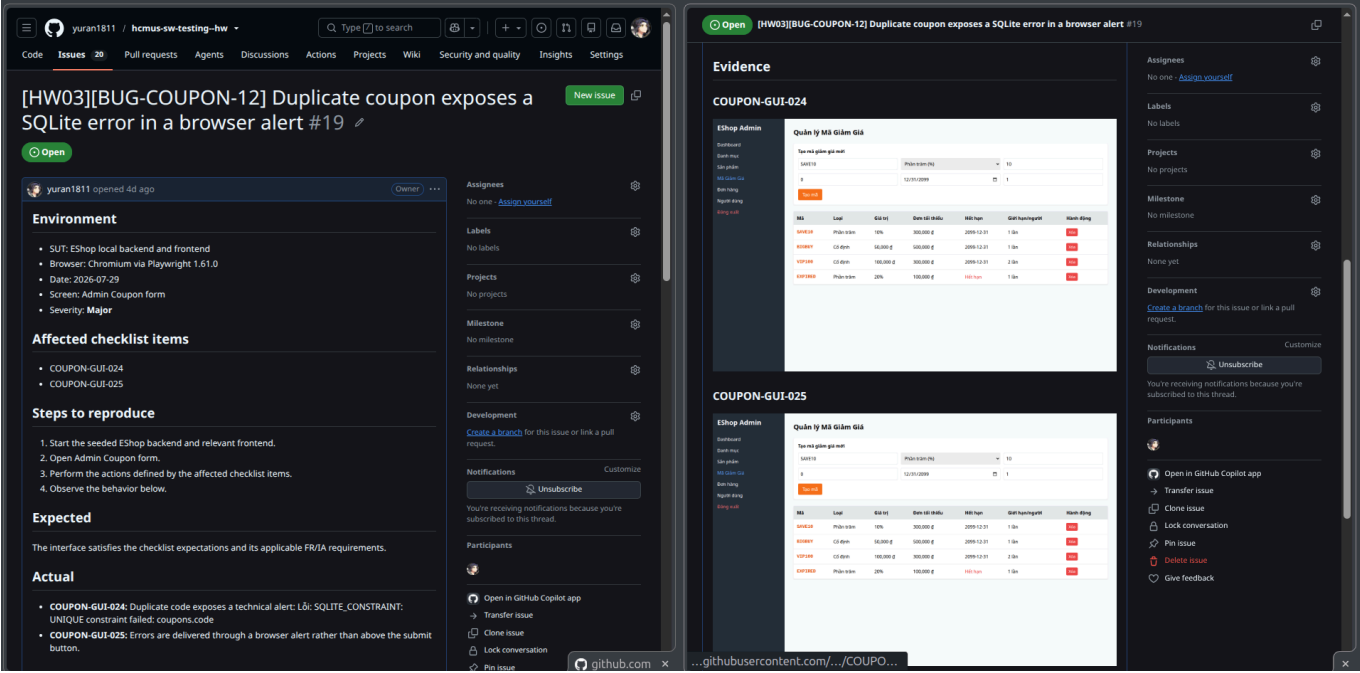

Steps to reproduce

1. Start the seeded backend and relevant frontend.
2. Open Admin Coupon form.
3. Perform the actions described by COUPON-GUI-024, COUPON-GUI-025.
4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: Duplicate code exposes a technical alert: Lỗi: SQLITE_CONSTRAINT: UNIQUE constraint failed: coupons.code Errors are delivered through a browser alert rather than above the submit button.

Evidence: [COUPON-GUI-024](#), [COUPON-GUI-025](#)

BUG-COUPON-14 — Coupon deletion has no confirmation dialog

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Major
Màn hình	Admin Coupon table
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	COUPON-GUI-027, COUPON-GUI-028, COUPON-GUI-030

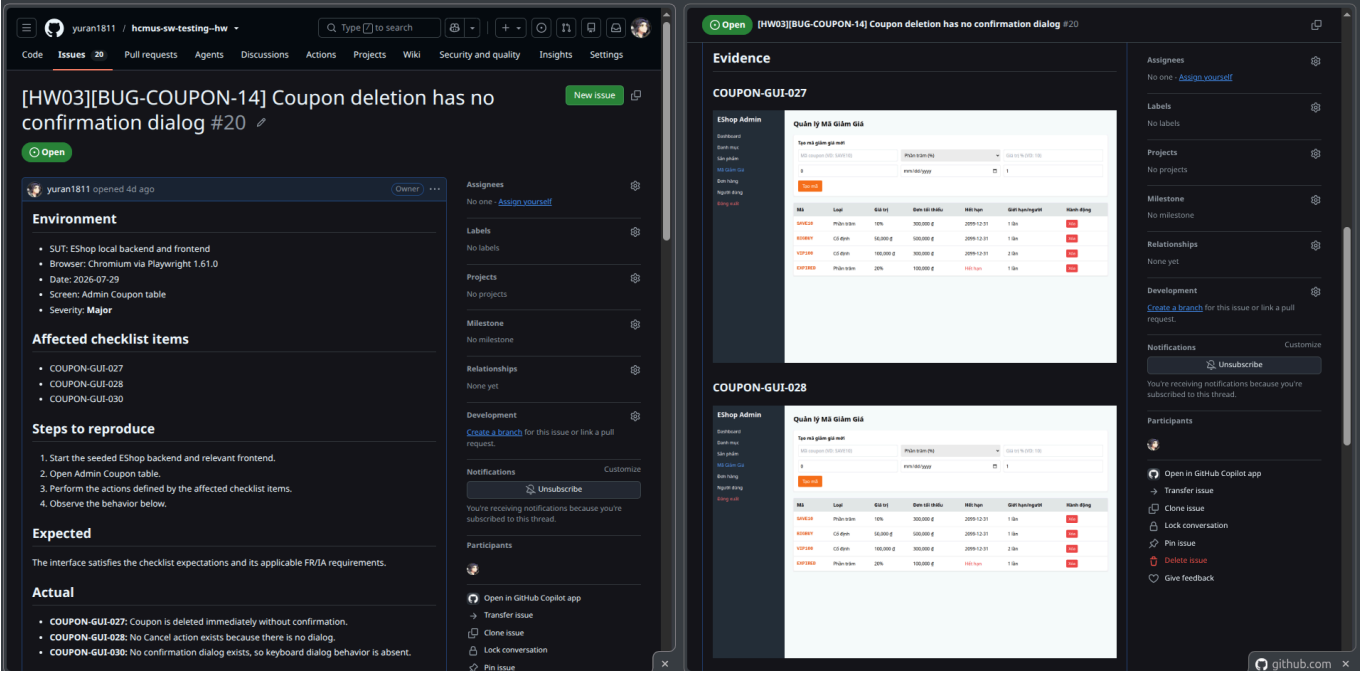

Steps to reproduce

1. Start the seeded backend and relevant frontend.
2. Open Admin Coupon table.
3. Perform the actions described by COUPON-GUI-027, COUPON-GUI-028, COUPON-GUI-030.
4. Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: Coupon is deleted immediately without confirmation. No Cancel action exists because there is no dialog. No confirmation dialog exists, so keyboard dialog behavior is absent.

Evidence: [COUPON-GUI-027](#), [COUPON-GUI-028](#), [COUPON-GUI-030](#)

BUG-COUPON-17 — Coupon delete buttons have ambiguous accessible names

Thuộc tính	Giá trị
Mức độ nghiêm trọng	Major
Màn hình	Admin Coupon table
GitHub Issue	Open issue
Hạng mục bị ảnh hưởng	COUPON-GUI-034

Steps to reproduce

- Start the seeded backend and relevant frontend.
- Open Admin Coupon table.
- Perform the actions described by COUPON-GUI-034.
- Observe the actual behavior recorded below.

Expected: The interface satisfies the linked checklist expectations and applicable FR/IA requirements.

Actual: All row actions have the ambiguous accessible name “Xóa”.

Evidence: [COUPON-GUI-034](#)
