|
| docs: finalize ai audit report, ai critique, bug report, gui & usability testing

|
| - Updated README.md to streamline project overview and remove redundant sections.
| - Translated Usability Testing documentation to Vietnamese and refined content for clarity.
| - Created issue-links.json to centralize bug report links for easier reference.
| - Added SUS results documentation for usability evaluation participants, detailing their feedback and observations.

|
| feat: update submission
|
| - Updated Usability_Testing.md to clarify participant details and evaluation tools.
| - Removed outdated PDF report (Usability_Testing_Phase1.pdf).
| - Added new evidence images for bug tracking and coupon issues.
| - Implemented automated recording of agent skill demonstrations using Playwright.
| - Enhanced artifact generation script to include agent skill demo results.
| - Updated validation scripts to ensure new demo artifacts are correctly processed.
| - Adjusted timestamps in task results to reflect recent executions.

|| Date: Mon Jun 1 00:06:00 2026 +0700
||
|| chore: scaffold hw01 directory structure and report skeleton
||
|| - Created hw01/ directory tree (ai-artifacts, evidence/jobs, evidence/mindmap, evidence/videos)
|| - Added report.md with full section outline and TODO placeholders
|| - Added prompt-log.md with timestamp column format
|| - Added audit-reports.md with 5-section template skeleton
|| - Added evidence/placeholder.md as directory marker
|| - Updated spec.md with FR-027 through FR-039 (validation gaps fixed)
|| - Updated validation.md checklist (63/63 items resolved)
